

Microscopy/Spectroscopy Specialist (m/f/d) for International Service and Support

To further strengthen our worldwide service and support team we are looking for a colleague (m/f/d) to start immediately on a full-time basis.

Your key challenges and responsibilities:

- Worldwide installation of high-end microscopes and spectrometers including qualified on-site customer training
- Providing support to our customers regarding all questions about our systems and components (via email, remotely or on-site)
- Development of documentation and training modules
- Assist in continuous market monitoring for our product management
- Support in testing new products for our development
- Obtaining customer feedback for the continuous improvement and further development of our products

Your benefits:

- Very good compatibility of family & career
- Permanent employment contract with flexible working hours & possible Home office hours
- Active health management with in-house sports and massages
- Company pension plan and other attractive social benefits
- Responsible job with short decision-making processes and promotion of professional development
- Intensive training, mentoring and employee academy
- Very good transport connections

Your profile:

- Excellent cooperation skills, also on an international level
- Distinct customer orientation
- Enthusiasm for new technologies and their customer-oriented implementation
- University degree in Physics, Chemistry or Biology with a focus on fluorescence microscopy and/or spectroscopy
- Hands-on experience in the fields of fluorescence analysis, time-resolved fluorescence, confocal microscopy, single molecule spectroscopy or life cell imaging
- Fluent in spoken and written English, additional language skills, especially in German are welcome
- Enthusiasm for working in various cultural contexts
- Disposition for numerous international travels
- Hands on experience with installations of complex technical instruments and customer support are a plus

Have we aroused your interest? We look forward to receiving your application via our website <https://www.picoquant.com/careers>

PicoQuant is an owner-managed, internationally active high-tech company dedicated to the development and manufacture of devices for electro-optical measurements. Our dynamic team comprises around 100 people from a wide range of professional, scientific and engineering backgrounds. As a company, we offer high-quality products as well as future-proof jobs that are as individual as our customers and employees.
