

Microscopy/Spectroscopy Specialist (m/f/d) for International Service and Support

To further strengthen our worldwide service and support team we are looking for a colleague (m/f/d) to start immediately on a full-time basis.

Your key challenges and responsibilities:

- Worldwide initial installation of high-end microscopy and spectroscopy systems including qualified customer training
- Carrying out measurements of customer samples on our microscopes and spectrometers in-house or at the customer's premises worldwide
- Supporting customers with technical and application-related questions about our systems and components (by email, remote diagnosis or on site)
- Supporting product management and development by contributing specialist knowledge on applications and customer requirements

Your benefits:

- Permanent employment contract with flexible working hours
- 30 days vacation
- Possibility of mobile working
- Secure job in an industry with a promising future
- Active health management with sports and massages in-house
- Very good work-life balance with consideration for private circumstances
- Individual onboarding and promotion of professional development
- Good transport connections and subsidized job ticket - for the sake of the environment
- Company pension plan incl. employer subsidy and much more

Your profile:

- Successfully completed university studies in physics, chemistry or biology with a focus on fluorescence microscopy and/or spectroscopy
- Several years of sound practical experience in the fields of fluorescence analysis, time-resolved fluorescence measurements, confocal microscopy or single-molecule spectroscopy
- Strong customer orientation and intercultural sensitivity
- Willingness to travel internationally numerous times per year
- Very good knowledge of the English language (at least C1 level)
- Initial experience in the installation and support of complex devices and systems is desirable

Sounds interesting? We look forward to receiving your application via our website <https://www.picoquant.com/careers>

PicoQuant is an owner-managed, internationally active high-tech company dedicated to the development and manufacture of devices for electro-optical measurements. Our dynamic team comprises around 120 people from a wide range of professional, scientific and engineering backgrounds. As a company, we offer high-quality products as well as future-proof jobs that are as individual as our customers and employees.
